paul ricoeur s work is of seminal importance to the development of hermeneutics phenomenology and ideology critique in the human sciences this major volume assembles leading scholars to address and explain the significance of this extraordinary body of work opening with three key essays from ricoeur himself the book offers a fascinating tour of his work ranging across topics such as the hermeneutics of action narrative force the other and deconstruction while discussing his work in the context of such contemporary figures as including heidegger lacan evinas arendt and gadamer paul ricoeur is also published as volume 21 issue 5 6 of philosophy and social criticism

this book investigates the importance of ricoeur s hermeneutics and poetics in rethinking humanities in particular ricoeur s insights on reference as refiguration and his idea of interpretation as a triadic process which consists of mimesis 1 prefiguration mimesis 2 configuration and mimesis 3 refiguration will be applied to philosophy of science and to literary and historical texts it will be shown that ricoeur s idea of emplotment can be extended and applied to scientific literary and historical texts this multidisciplinary research will include philosophy of science metaphysics hermeneutics and literary theory

hermeneutics and phenomenology in paul ricoeur between text and phenomenon calls attention to the dynamic interaction that takes place between hermeneutics and phenomenology in ricoeur s thought it could be said that ricoeur s thought is placed under a twofold demand between the rigor of the text and the requirements of the phenomenon the rigor of the text calls for fidelity to what the text actually says while the requirement of the phenomenon is established by the husserlian call to return to the things themselves these two demands are interwoven insofar as there is a hermeneutic component of the phenomenological attempt to go beyond the surface of things to their deeper meaning just as there is a phenomenological component of the hermeneutic attempt to establish a critical distance toward the world to which we belong for this reason ricoeur s thought involves a back and forth movement between the text and the phenomenon although this double movement was a theme of many of ricoeur s essays in the middle of his career the essays in this book suggest that hermeneutic phenomenology remains implicit throughout his work the chapters aim to highlight in much greater detail how this back and forth movement between phenomenology and hermeneutics takes place with respect to many important philosophical themes including the experience of the body history language memory personal identity and intersubjectivity

the path husserl entered upon at the beginning of his philosophical writings turned out to be the beginning of a long tedious way throughout his life he constantly comes to grips with the fundamental problems which set him upon this path beginning with the logical level of meaning laboring through the idealism of the transcendental phenomenology of the period between ideas i to the meditations in search for the ever more originary he finally arrived at the level of the lebenswelt it was this later focus on the ever more originary the source the foundation of meaning which led him finally to the horizon of meaning and the genesis of meaning in the lebenswelt period this later period allows for a quasi wedding of his phenomenology with some adaptation of existentialism but this union called for an adaptation of husserl s logistic prejudice the period of the lebenswelt allows many of the later phenomenologists to speak of the failure of the brackets in their extreme exclusion and to allow for a link between man and his world in the lebenswelt this link is at the source of the ontological investigations and theories which arise from the phenomenological movement however there is the possibility of many tensions in such an endeavor since the study of being can be most abstract and most concrete

a critical account of ricoeur s theory of narrative interpretation and its contribution to theology

paul ricoeur s contribution to the theory of interpretation or hermeneutics is considerable he ranks among the masters of this discipline alongside schleiermacher dilthey heidegger and gadamer in addition to major works like the conflict of interpretations he wrote many articles and shorter texts which deserve to be discovered and rediscovered these allow us to gain a deeper understanding of the development of his work over time and to appreciate the full range of his contribution some of the texts examine the nature of metaphor while others guide the reader through the many challenges of the hermeneutic problem from the symbol to the text then to the text as action taking full account of the ethical implications here one encounters ricoeur s reflections on the future of hermeneutics and his abiding concern to explore the relations between hermeneutics and analytical philosophy ricoeur s contribution to biblical hermeneutics has also been decisive two masterful studies in this volume attest to ricoeur s attempt to explore the relations between revelation and truth on the one hand and between myths of salvation and reason on the other this book the second volume of ricoeur s writings and lectures
